The objects of the Association are as follows:

First: To improve the directory business by the interchange of ideas, and by the exchange of competent employees.

Second; To protect the public against fraudulent advertising schemes operated under the name of directories and to drive the promoters of such out of business.

Third: To provide permanent and continuous employment for honest and faithful directory canvassers.

Fourth: For the mutual advancement of the established and prospective interests of all who may become members of the Association

STREET DIRECTORY

AND GUIDE TO

SUMMER RESIDENCES

COPYRIGHT, 1922 SAMPSON & MURDOCK CO., BOSTON, MASS.

(See also List of Summer Residents)

Giving the location of the Streets, Places, Parks, Squares, etc., and showing what other streets and places run from them, or across them, with the number at which they intersect

From this list, the location of any number on a street, or the location of any public building, can be easily ascertained; as, for instance, wishing to know at what part of Broadway No. 220 is located, you look at Broadway, and find that Gould Street runs from 202, and Park Street from 226, showing that 220 would come on the left, between Gould and Park Streets

When a street crosses another, numbers (or ciphers) are given on both sides; but when it begins or ends at that street, the number is given only on the side at which it intersects. Ciphers are used where no numbers exist

*Indicates streets accepted. **Indicates part of street accepted

Still Alarm—2 (..) strokes call Chemical Co.

Re-call—3 (...) strokes after either alarm indicate that the fire is under control, and relieves the companies held in reserve

SPECIAL SIGNALS

Time and Test of Alarm—1 (.) stroke at 12 M., 6 P.M. and 9 P.M.

Bay State R R—6 (.....) repeated

Red Cross—7 (.....) repeated

Military Special—9 (.....) strokes repeated calls all Militia Men to their Armories

Police Special—121 (. .. .) repeated calls all Policemen not on duty to eport at Police Station

School Signal—13 (. ...) repeated

GENERAL INFORMATION

Keys of the Fire Alarm Boxes are placed with the residents in the immediate vicinity of the several boxes, also with all the policemen, and in several locations a Key is hanging on the side of the Box. Citizens will please inform themselves where the Keys are kept—signs giving the required information being placed on the Box

Key holders upon positive information of a fire in their immediate vicinity (nearer to that box than any other), may unlock the box, and IF THE SMALL GONG IN THE BOX IS NOT STRIKING, may pull the hook down ONCE AND LET GO.

Key holders are instructed that a box must never be pulled for a fire seen at a distance, or their key intrusted to boys or irresponsible persons

Persons giving an alarm are requested to remain at the box until the arrival of apparatus and then direct them to the locality of the fire

One stroke on the alarm bells, or two strokes, with an interval between them, indicates that the alarm is being tested

Two strokes preceding the pulling of any box will indicate that the box is pulled by the Chief Engineer to practice the department

The Chief Engineer will use the fire alarm to transmit his orders to the whole department or any detail thereof

Study the New England Business Field

The Busiest, Most Promising Section of our Country is well represented between the covers of *The New England Business Directory and Gazetteer.*

This Directory contains information of great value regarding the Manufacturing, Financial and Business Interests of New England and will amply repay a thorough knowledge of its possibilities to those interested in the business of these states.

Note from the Publishers

The original plan of this House Directory was to arrange the names on the page in the order in which the houses come on the street. For the first issue of such a feature as this, the names are sorted by street and number and the cross streets entered at their proper positions. Were Newport streets properly numbered, this method would give the names on each page in numerical order and this order would correspond to the sequence of the houses.

Unfortunately Newport is poorly numbered. Some streets lack numbers, many have duplicate numbers adjoining each other or frequently with other numbers between, many have numbers out of order, and many have both odd and even numbers on both sides of the street. These irregularities cause annoyance and delay probably hundreds of times daily.

Hitherto the Directory has taken no concern as to the correctness of house numbers. It has simply recorded addresses as found. The House Directory, added this year at the request of the Newport Chamber of Commerce, now compels the Directory to arrange the numbers in order so that the House Directory may be of maximum service. If the names are arranged numerically, residents will appear as neighbors who may not be even on the same block. If the names are printed in the order of the houses on the street, the numbers will be confused and the House Directory less serviceable.

The situtation is bad, and this first edition of the House Directory although prepared with exceeding care and without regard to expense, is of necessity a compromise between the above two conflicting methods of arrangement. Had the publishers realized sooner the extent of Newport's mis-numbering, they would have hesitated to proceed under present house numbering conditions. The new feature had been promised however, and they are glad to offer it now to the public, realizing from experience in other cities, its value. Most of the streets have been arranged numerically, but it has seemed best to arrange some in the order of the houses on the street. Readers who find what may seem to them errors in the arrangement of names, are asked to remember the conditions related above.

It is to be hoped that Newport will re-number its streets and this hope is shared by many citizens. Should this issue of the House Directory contribute to such a result, the publishers will consider their efforts worth while. We thank the many who co-operated with and encouraged us in this undertaking especially the Chamber of Commerce, the City Engineer, and our many patrons whose generous support alone makes such a work possible.
